Which '90s tech gadget is this?

Tamagotchi

Which '90s tech gadget is this?

**Correct Answer:** The Tamagotchi was created by Japan, and is a digital pet in the form of a small keychain. This made a great gift for kids who liked to have a game on the go.

Which '90s tech gadget is this?

## The TalkBoy

**Correct Answer:** Tiger also made this groovy gadget, a hit for those wanting to listen and be listened to! The TalkBoy had a cassette player for listening to your favorite tapes, and the ability to record whatever you had to say...or sing!

# *Who said?*

- ▶ It means your future hasn't been written yet, no one's has. Your future is whatever you make it, so make it a good one.

# Who said?

**Dr. Emmett Brown:** It means your future hasn't been written yet, no one's has. Your future is whatever you make it, so make it a good one.
