Enterprise Directory Groups

Now it looks like this if you go to <https://groups.it.vt.edu>

The screenshot displays the 'GROUP MANAGER' interface for Virginia Tech. At the top left is the Virginia Tech logo and the text 'Manage by Member'. At the top right, the user 'keroone1' is logged in. The main heading is 'GROUP MANAGER'. Below this, it says 'Groups Managed by keroone1' with a refresh icon and a '+ Create New Group' button. There are controls for 'Per page' (set to 10) and a 'Filter' search box. The main content is a table with columns for 'Group', 'Expires', and 'Actions'. The table lists several groups with their expiration dates and a 'Choose' button for each.

Group	Expires	Actions
es.product.search.cnotify	Dec 23rd 2019	
ims.guestcheck	Jun 10th 2020	Choose
it	Sep 18th 2020	Choose
it.staff	Sep 18th 2020	Choose
mobile	May 4th 2020	Choose
mobile.support	Sep 22nd 2020	Choose
myvt	May 4th 2020	Choose
myvt.support	Apr 4th 2020	Choose
nodns	Mar 19th 2050	Choose

Organizational ED Groups (Pilot)

When adding group members you'll see this option

Organizational Groups

Enter the Organization Code of the group you want to add, if you know it. ?

Otherwise, choose "Show All" to display all organizational groups.

Show All

Org Name: Secure Identity Services Mgt

Org ID: org.orgn.066100

Add Org

Organizational ED Groups (Pilot)

How do they work?

1. Banner Fund Org. structure auto-populated from employee home org
 - a. You may get a population that is more or less what you expect
2. There are no admins or managers
3. They're flattened and replicated to HOKIES, Code.vt.edu and Google when someone chooses to replicate the groups that they administer
4. Do not use them directly! Create a group that includes them as members.

Data and System Access Automation Program

Did you say Role-Based Access Control?

RBAC Working Group

Four projects within the program

1. Learn and Prototype
2. Enterprise Roles Framework/Business Process
3. Service Onboarding Framework/Business Process
4. Technical Implementation

External Identities Project

Bring Your Own Identity (BYOI)

Social, Federated, External, and Local Identities

Multiple Accounts/Personas

'O' Protocols - OAuth2 and OpenID Connect

Guest Account Updates

No more @vt.edu guest accounts created as of 10/9/2019

Parent/Applicant portal will use Login for SSO as of 10/9/2019

Login.vt.edu will no longer assume you're a guest with @vt.edu as of TBD
