# Project 6.1 - “Elevate VT to CIS v8 IG2”

# VT Minimum Security Standard v4.0

- Aligns the **CIS v8 IG2 safeguards** to university assets and establishes the safeguards' requirements at Virginia Tech, defining the “**What**”, “**Where**”, and “**Who**” for implementation
- Draft MSSv4.0 is currently open for comments from the university community and will remain in draft until effective on **July 1, 2024**
- Compliance date for the MSSv4.0 is **June 30, 2025**
- Companion web application is under development. Allows readers to “drill-down” to an appropriate scope based on the asset(s) they're responsible for.

# ITSO Procedure Guides

- Procedure guides serve as the “**How**” for the Minimum Security Standard, but are not exhaustive of all possible compliance and implementation options
- Procedure guides for the existing MSSv3.7 are completed (Project 6.6)
- Procedure guides for the MSSv4.0/IG2 safeguards development is ongoing, initial guides to be completed by December, 2023
- Feedback is welcome and should be directed to the ITSO
